Instructions for Bush-Tell's Calling Features:

CALL FORWARDING: This feature allows a customer to forward all incoming calls to another phone number.

Activation and setup:

1. Dial 72# and wait for the dial tone to return.
2. Dial the phone number you're forwarding the phone to, it can be either a local or a long distance number.

Tips:

1. It's best if someone answers the phone, or the answering machine picks up so the forwarding is effective immediately. If no one answers, repeat steps 1 and 2 again.
2. If the number you are forwarding your phone to is a long distance number, call forwarding will take effect as soon as you are done.

Deactivating Call Forwarding:

1. To deactivate call forwarding dial 73#, wait until you hear two beeps, and the dial tone returning, this signals that call forwarding has been deactivated.

NOTE: You will be billed as a direct dial call for all calls forwarded to a long distance number.

CALL WAITING: This allows a customer to answer incoming calls while talking to another party.

Answering Call Waiting:

1. Two beeps, spaced a few seconds apart, will alert you to another call coming in. To answer the call, just press the hook switch, and then let go. You should then be connected with the incoming caller.
2. To return to your previous call just press the hook switch again. You can alternate the calls in this manner.
3. If you accidentally hang up on a caller, the phone will automatically ring. Just answer the phone to be reconnected with your caller.

Tips:

- *76 to turn on call waiting
- *70 to turn off call waiting

LAST NUMBER REDIAL:

1. To redial the last number called from your phone, just press the # button.

THREE WAY CALLING: This feature allows three separate callers to be on the phone line together.

Activation:

1. When talking to one party, depress the hook flash and release; this puts the caller on hold. You will then hear a dial tone.
2. Now dial the number of the next party.
3. Once the third party answers depress and release the hook flash, and all three callers should be joined.
4. Hang up to disconnect all three parties.

WAKE UP CALL: This feature programs your phone to ring at a time specified by you. It will ring everyday at the time you choose.

Activation:

1. Dial 82# and then enter the time you want the wake up call to ring. After you enter the time you will hear a burst of tone, you may then hang up.

Tips:

1. The wake up time must consist of 3 or 4 digits, and has to be dialed according to military time.

Example:

6:00 am is 600
6:30 am is 630
6:00 pm is 1800
6:30 pm is 1830
Noon is 1200
